

K L University

(Deemed to be University, Estd. u/s. 3 of UGC Act 1956)

Campus: Green Fields, Vaddeswaram, Guntur Dist., A.P., India. Pin: 522 502. Ph: 0863 - 2399999.

Admin Office: 29-36-38, Museum Road, Governerpet, Vijayawada. A. P., India. Pin: 520 002. Ph: 0866 - 2577715.

36
Years of
Engineering
Excellence

Department of Computer Science & Engineering offers M.Tech in

1. Computer Science & Engineering

Duration: 2 years (4 Semesters)

Eligibility: B.Tech in CSE / IT / ECE / EEE / EIE / ECM or
MCA/MSc with at least 55% marks or equivalent

2. Internet of Things (IOT)

3. Cloud Computing

4. Cyber Security & Digital Forensics

5. Computer Networks & Security

6. Computational Intelligence

Duration: 2 years (4 Semesters)

Eligibility: B.Tech in CSE / IT / ECE / EEE / EIE / ECM
with at least 55% marks or equivalent

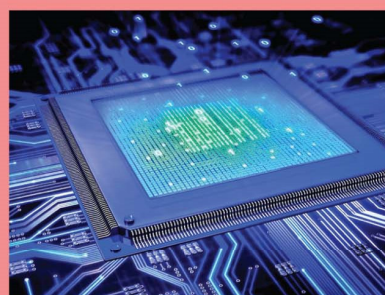

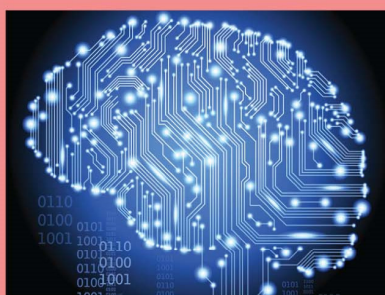

The Department of computer science engineering (CSE) is established in 1983 which has the best blend of faculty with academic, industrial and research experience. B.Tech, M.Tech and Ph.D Programs with emerging specialization are offered in accordance with Industrial requirements. The curriculum is well designed based on the recommendation of academicians, Alumni, Industrial experts and other stakeholders.

The state of art infrastructures with latest hardware and software are in place.

The highlights of the department are:

- ✓ DST FIST sponsored department
- ✓ There are 48 Doctoral faculty members in the department
- ✓ Highly successful Industry- Institution with CMM Level 5 Companies Viz., Microsoft, IBM, Wipro, Infosys, ESF Labs and CISCO.
- ✓ Foreign professors as visiting faculty.
- ✓ Guest Lectures on state of Art technologies by eminent Academicians and industry Experts.

Admissions Open!!!

The master of technology programs in K L University are designed to provide a balanced mixture of theoretical and professional training in computer science and technology. On successful completion of the program, students may take up either a professional career in the technology of software for computer systems or specialized application areas or an academic career for further study and research in the fundamental and applied aspects of computer science and technology and related disciplines.

Two year full time M.Tech programme

The CSE department at K L University invites candidates to join M.Tech. (CSE) programme.

The four semester with a wide choice of courses. The programme comprises several core, elective courses and research oriented project work. This program provides ample opportunities to explore both research and development skills. The advanced and specialized courses provide deeper insights into various areas in computer science and engineering, while the M.tech thesis allows you to a topics of interest by joining research projects of the faculty. The department has established memorandum of understand with industries and software companies. The program provides internship opportunities for students in reputed organizations.

Program Features

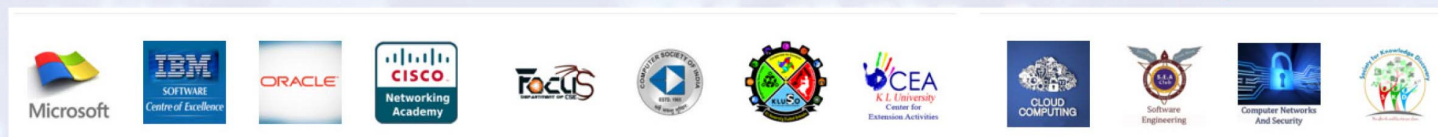

- World class Curriculum
- Choice based credit system
- Student flexible courses
- Industry oriented training
- World class faculty
- ICT based learning
- Research oriented learning
- Internship

Industrial Collaborated Labs

Student Bodies

Research Groups
