# *Report on One day workshop on IBM Blue mix tool held on 18/03/2015*

A one day workshop on IBM Blue mix tool under the umbrella of IBM Center of excellence (IBM COE) activities was held on 18/03//2015 on the occasion of IBM Blue mix day at Jasmine hall of KL University from 4.00 to 8.00 pm. Around 50 students of B. Tech 3$^{rd}$ year CSE & ECM have participated in the workshop. Mr. Ch Yuktesh, IT specialist, IBM India pvt. Ltd., was the resource person.

IBM Blue mix is IBM's next generation open-standards cloud based platform for building, managing, and running apps of all types (web, mobile, big data, new smart devices). Leverage ready-to-use capabilities like Java, mobile backend development, application monitoring, as well as many more assets from ecosystem partners and open source – all through an as-a-service model in the Cloud. The workshop is organized in two sessions. The first half of the session contains a brief introduction about IBM products, IBM market share and a short presentation on Web technologies along with IBM's cloud computing Blue mix tool including a demo on how to deploy a web application in to server residing in the Cloud. The second half of the session contained lab component where all the registered students are asked to create, deploy and execute the same with simple web applications. All the 50 students have registered and deployed their web applications on IBM Blue mix cloud server.

Mr. Ch Yuktesh, IT Specialist, IBM
